

GO WAXED!

PRODUCT OVERVIEW
UPDATE 06.2026

KMC GO WAXED PROGRAMME

KMC GO WAX was developed with the aim of reducing friction and improving shifting performance. At the same time, **KMC GO WAX** extends the service life of the drivetrain – it forms a water-repellent microfilm on the chain that permanently prevents heavy dirt adhesion and minimises the associated accelerated wear.

DURABILITY: Once applied, the wax dries to form a protective barrier that outlasts oil-based products.

CLEANER PERFORMANCE: Our waxed chains attract less dirt, minimizing the common causes of wear and ensuring smoother operation.

MAINTENANCE MADE SIMPLE: With minimal dirt accumulation, your drivetrain requires less frequent care. Refreshing the wax is straightforward—simply use a dry brush or cloth. No degreasing is necessary; a simple touch-up with KMC GO WAX keeps your chain in top condition.

CLEAN SOLUTION: KMC GO WAX is biodegradable and free from PFAS and harsh solvents, making it a responsible choice for both your bike and the environment.

X-SERIES WAXED

**X12
WAXED**

- Compatible with 12-speed systems
- Perfect shifting thanks to Double X-Bridge
- Durability: ●●●●●

The updated X12 models (Art -Nr. ending BX12...W1) have been redesigned for 12-speed derailleur systems using SHIMANO standard to further optimise shifting performance (not compatible with SRAM systems).

Older versions work with all major 12-speed systems (except SRAM with flattop).

KMC TT-SERIES

The TT-Series combines the design features of our premium series. Thanks to unused tools and the most precise component selection, the result is a chain with maximum precision and strength. Enlarged rollers optimise the fit between the chain and chainring - for the best shifting characteristics and unrivalled power transmission. The chain for when every watt counts.
